Description

The Pack of 10 Titanium Drill Bits 4.0 mm is the perfect solution for professionals seeking quality and durability in their tools. These drill bits are designed to deliver high performance on hard materials, thanks to their titanium nitride coating that enhances wear resistance.

Recommended uses include drilling in hard steel and other metals. Relevant specifications include an HSS TIN DIN 338N design with a 118º angle, ensuring efficient and precise drilling.

Compatible with most standard drills, this pack is ideal for workshops and DIY projects. Don't miss out, order your pack today!
