Description

The Pack of 10 titanium drill bits at 7.5 mm is the ideal solution for professionals seeking quality and performance. These drill bits are designed to easily drill through hard steels, thanks to their titanium nitride coating that enhances durability and wear resistance.

Recommended for use in workshops and construction projects, these bits comply with HSS TIN DIN 338N 118º standards, ensuring precise and efficient cutting. Their golden color is not only aesthetic but also indicates their high quality.

Compatible with most drills, this pack is an essential investment for your toolbox.
