Description

The Pack of 5 titanium drill bits measuring 12.5 mm is the perfect solution for working with hard steel. Its titanium nitride coating ensures high performance and a long lifespan, allowing for precise and efficient drilling.

Recommended for use in workshops and DIY projects, these drill bits are compatible with most electric drills. With a ground design and a 118° angle, they ensure clean and fast cuts.

Don't compromise on the quality of your drilling; choose our titanium drill bits and experience the difference in your work.
