Description

The 50 m PTFE tape is the perfect solution for ensuring airtight connections in plumbing and construction. Its high strength and waterproof properties guarantee effective sealing, preventing water or gas leaks.

We recommend its use in both domestic and professional installations, where durability is crucial. Compatible with various pipes and conduits, this tape does not crack or harden over time.

- Dimensions: 19mm x 0.10mm.
- Packaging: 1 unit.
- Ideal for plumbing work.

Secure your connections today with our PTFE tape!
