Description

The PE insulation sleeve for Ø22 mm pipes x 1 m is the perfect solution for protecting and thermally insulating your installations. Made from closed-cell expanded polyethylene, it offers excellent resistance to temperatures up to 100 °C and soundproofing properties.

We recommend its use for pipes exposed to harsh weather conditions, ensuring the durability and efficiency of your systems. The sleeve comes pre-slit longitudinally, making installation easy. Compatible with pipes of various diameters, its wall thickness of 10 mm ensures optimal protection.

- Length: 1 meter.
- Available in packs of 15 units or single format.

Don't compromise on the quality of your installations, choose our PE insulation sleeve.
