Description

The Pack of 12 PE Insulating Sleeves is the perfect solution for protecting and thermally insulating Ø35 mm pipes. Made from expanded gray polyethylene, these sleeves offer excellent durability and safety in installations. They withstand temperatures up to 100 °C and are ideal for preventing freezing.

Recommended for use in plumbing and heating installations. For a perfect seal, it is advisable to use appropriate adhesives or tape at the joints. Available in lengths of 1 meter and 2 meters, with a thickness of 10 mm, they adapt to various installation needs.

Specifications

EAN	8445187468472
