Description

The in-built ventilation grille is the perfect solution for efficient smoke and gas extraction in enclosed spaces. Made from white ABS, it offers durability and an aesthetic design that easily integrates into any environment.

Recommended uses include kitchens, bathrooms, and industrial areas. It is compatible with pipes ranging from 12 to 14 cm in diameter and installs easily with its securing clips.

With this grille, you will not only improve ventilation but also prevent insect entry thanks to its mosquito net. Take advantage of the pack of 5 units for a complete solution!
