Description

The pack of 10 male threaded PP PN16 connectors is ideal for water conduction systems. Its robust and durable design allows for secure and efficient installation. This connector is compatible with polyethylene pipes and supports a nominal pressure of 16 bars.

Recommended for use in both industrial and domestic environments, its EPDM sealing gasket ensures a perfect fit, preventing leaks. The black finish with a blue nut gives it a professional appearance.

Don't miss the chance to enhance your piping system with this quality product. Buy now!
