Description

The Pack of 3 Final Caps Polypropylene PN16 75 is the perfect solution for sealing polyethylene pipes in water conduction systems. With a nominal pressure of 16 bars, these caps ensure optimal and durable performance.

Recommended for use in hydraulic installations, their design includes an EPDM sealing gasket that provides a tight and leak-free fit. Additionally, their high-quality polypropylene construction offers strength and durability under demanding conditions.

Compatible with various pipe sizes, these caps are ideal for both B2B and B2C projects. Get your pack today and ensure the quality of your installations!

Specifications

EAN	8445187360189
Manufacturer	COFAN
Material	Polypropylene
