Description

The PP PN16 takeoff collar is the perfect solution for branch connections in water conduction systems. Its robust design and polypropylene material ensure exceptional durability and high-pressure resistance.

Recommended for installations in industrial and residential environments, this collar is compatible with various pipes and easy to install. Its black finish is not only aesthetic but also provides additional corrosion protection.

- Height: 10 cm
- Width: 20 cm
- Depth: 22 cm
- Includes 2 units per pack

Take the opportunity to enhance your installations with this high-quality collar!
