Pack of 5 PP Ball Valves PN16 40 x 40

Brand: COFAN

Reference: COF 65008704

PP ball valve ideal for water systems.

- High pressure resistance (PN16).
- Connections for polyethylene pipes.
- Easy installation and maintenance.
- Durability guaranteed with EPDM seal.

Description

The PN16 polypropylene ball valve is the perfect solution for water conduction systems. With a robust design and 40 mm connections, this valve ensures optimal performance in high-pressure applications.

Recommended for use in drinking water installations and irrigation systems, its high-quality polypropylene construction guarantees a long lifespan. Additionally, its EPDM sealing gasket prevents leaks, providing a secure fit.

Compatible with polyethylene pipes, this pack of 5 units is ideal for large-scale projects. Take advantage of our offer and enhance your conduction system today!

Specifications

EAN	8445187362169
