Description

This pack of 5 female thread ball valves is perfect for water conduction systems. Made from high-quality polypropylene, it offers durability and resistance to pressures of up to 16 bars.

Recommended for polyethylene (PE) pipe installations, this product includes an EPDM sealing gasket that ensures a strong, leak-free fit. It is compatible with various sizes and can be purchased in packs or individually.

Don't compromise on the quality of your installations, choose our ball valves for optimal performance.
