Description

The bicromated angle reinforcement of 100x100 mm is designed to provide structural support in a variety of projects. Its bicromated finish offers greater corrosion resistance, making it suitable for demanding environments. This product is compatible with different types of structures and is easy to install.

- Dimensions: 100x100 mm
- Material: Treated steel
- Finish: Bicromated
- Corrosion resistance
- Use in metal structures
- Compatible with welding
- Applications in construction
- Easy installation
- Guaranteed durability
- Quality certification
