Description

The 4.8x16 large head rivets are essential components for fastening in industrial projects. Their high-quality construction ensures a firm and reliable hold, suitable for a variety of materials. These rivets are perfect for applications in construction, automotive, and manufacturing, where strength is crucial.

- Dimensions: 4.8 mm diameter and 16 mm length
- Material: High-strength steel
- Finish: Galvanized for increased durability
- Installation: Manual or with pneumatic tools
- Usage: Fastening on metal and plastic structures
- Compatibility: Suitable for different types of surfaces
- Corrosion resistance: High
- Standards: Complies with industrial standards
- Applications: Construction, automotive, manufacturing
- Packaging: Available in boxes of 100 units
