Description

The 4.8x30 large head rivets provide a robust and reliable fastening solution for industrial and construction projects. They are perfect for joining metals, plastics, and other materials. Their design ensures a secure hold, making them ideal for applications in demanding environments.

- Dimensions: 4.8 mm diameter and 30 mm length
- Material: High-strength steel
- Finish: Galvanized for increased durability
- Installation: Compatible with standard riveting tools
- Usage: Ideal for metal structures and assemblies
- Corrosion resistance: High
- Applications: Construction, automotive, and more
- Certifications: Complies with quality standards
- Availability: In various quantities
- Compatibility: Suitable for various materials
