

## Product sheet

**multilayer accessory female  
elbow metal rf/u 16-1/2**

Brand: SCOA

Reference: SCO 67019

This female elbow metal RF/U is designed for cross-linked polyethylene piping systems. Its robust construction ensures a secure and durable connection in plumbing applications.

[View product online](#)**Description**

The female elbow metal RF/U 16-1/2 is an essential component for multilayer piping systems. Its design allows for easy and efficient installation, ideal for plumbing projects in residential and industrial environments.

- Material: Durable metal
- Compatible with cross-linked polyethylene pipes
- Dimensions: 16-1/2
- Secure and durable connection
- Easy installation
- Used in plumbing applications
- Corrosion resistant
- Compact design
- Ideal for cold and hot water systems
- Quality certification
