Description

The HSS-bimetal hole saw with a Ø 52 mm variable tooth design is a high-quality tool designed to deliver superior performance in drilling applications. Its bimetal construction provides exceptional wear resistance, making it suitable for various materials. Recommended for industrial and DIY applications where precision and durability are required.

- Diameter: 52 mm
- Material: HSS-bimetal
- Variable tooth design for enhanced efficiency
- Compatible with standard drills
- Ideal for metal and plastic
- Extended durability
- Clean and precise cuts
- Use in industrial and DIY environments
- Easy installation
- Optimized performance

Specifications

EAN	4007140006790
Manufacturer	Ruko
Country of origin	CN
Size	52
