## Description

The AC-MAX KIT CIRCUITO CONTROLADOR 2 PUERTAS is an advanced solution designed for the efficient management of access control systems in residential and commercial facilities. This kit allows for the simultaneous control of two doors, offering an intuitive interface and reliable performance. Its modular design facilitates installation and maintenance, while its cutting-edge technology ensures smooth and secure operation. Ideal for applications requiring rigorous access control, the AC-MAX adapts to various configurations and specific needs.

- **Access control:** Allows managing up to two doors independently.
- **Compatibility:** Compatible with a wide range of security devices and electronic locks.
- **Easy installation:** Modular design that facilitates installation and maintenance.
- **Intuitive interface:** User-friendly control panel for quick configuration.
- **Power supply:** Operates on standard voltage, ensuring easy integration into existing systems.
- **Durability:** Built with high-quality materials for a long service life.
- **Security:** Incorporates advanced security features to protect against unauthorized access.
- **LED indicators:** Visual signals that facilitate operation and diagnostics.
- **Technical support:** Includes technical assistance to resolve any questions during installation.
- **Compact dimensions:** Design that optimizes space in limited installations.
