Description

The Marine Color Camera Module is an advanced solution designed to deliver optimal performance in demanding environments. This device integrates perfectly into the Marine Classic system, providing high-quality images and excellent color reproduction. Its robust design and corrosion resistance make it ideal for marine applications, ensuring durability and reliability in adverse conditions. With simple installation and intuitive operation, this module is perfect for those looking to enhance their visual experience at sea.

- **Compatibility:** Designed for the Marine Classic system.
- **Resolution:** High definition for sharp and clear images.
- **Color:** Advanced color reproduction technology.
- **Material:** Corrosion-resistant construction.
- **Installation:** Simple and quick process.
- **Dimensions:** Compact and lightweight for easy handling.
- **Operating temperature:** Wide range for various weather conditions.
- **Connectivity:** Interface compatible with multiple devices.
- **Usage:** Ideal for marine and aquatic applications.
- **Warranty:** Quality assurance and technical support.
