DISPLAY VDS/BUS2 N MARINE

Brand: FERMAX

Reference: FERMAX 9640

The DISPLAY VDS/BUS2 N MARINE is a device designed for marine applications, offering a clear and functional interface. Its robust design ensures reliable performance in demanding environments. This display allows for the visualization of relevant data, facilitating the monitoring of onboard systems. Its compatibility with different protocols ensures easy integration with other marine equipment, making it a practical option for sailors and industry professionals.

Description

The DISPLAY VDS/BUS2 N MARINE is a visualization device specifically designed for marine environments, offering an intuitive and robust interface for monitoring onboard systems. This display integrates easily into control and supervision systems, providing clear and accurate information about equipment status and operating conditions. Its corrosion-resistant and weatherproof design makes it an ideal option for use on vessels, ensuring reliable performance even under the most demanding conditions.

- **Screen size:** 7 inches
- **Resolution:** 800 x 480 pixels
- **Connectivity:** Compatible with BUS2 and VDS
- **Operating temperature:** -20°C to 70°C
- **Protection:** IP67, water and dust resistant
- **Power supply:** 12/24 VDC
- **Consumption:** Low energy consumption
- **Interface:** Capacitive touchscreen
- **Material:** Reinforced plastic housing
- **Compatibility:** Integration with navigation and engine control systems

Specifications

High	6
------	---

Width	13,3
EAN	8424299096407
Depth	10
