MICROFONO ELECTRET PLACAS

Brand: FERMAX

Reference: FERMAX 9784

The electret microphone plates are a sound capture device designed to deliver clear and precise audio quality. Its construction allows for easy integration into various audio and electronics projects. Ideal for recording, amplification, and communication applications, this microphone is a versatile option for those seeking reliable performance in a compact format. Its design makes it suitable for use in both professional and amateur environments.

Description

The **Electret Plate Microphone** is a high-sensitivity device designed to capture audio with clarity and precision. This microphone uses electret technology, allowing it to deliver superior performance in various applications, from voice recordings to professional audio projects. Its compact and lightweight construction makes it ideal for use in environments where space is limited, without sacrificing sound quality. Thanks to its robust design, the microphone is suitable for both recording studios and field use, ensuring an excellent frequency response and low noise level.

- Type: Electret microphone
- Frequency response: Wide range for precise capture
- Impedance: Low, ideal for connection to various devices
- Connector: Compatible with standard connectors
- Dimensions: Compact and lightweight for easy transport
- Dynamic range: High, allows recording of soft and loud sounds
- Self-noise: Low, ensures clean recordings
- Applications: Ideal for voice recordings, instruments, and more
- Power supply: Operates on battery or phantom power
- Durability: Robust construction for prolonged use

Specifications

High	9,5

Width	6
EAN	8424299097848
Depth	0,5
