Product sheet

TFT 10' PLACA KIN

Brand: FERMAX

Reference: FERMAX 15428

The TFT 10' PLACA KIN is a 10-inch display device, ideal for various applications. It includes a cable and a TFT PCB, facilitating its integration into electronic projects. Its compact and functional design allows for easy installation and use. This product is suitable for those seeking an efficient and versatile screen solution in their technological developments.

Description

The TFT 10' Placa Kin is an advanced solution for applications requiring clear and precise visualization. This device features a 10-inch screen that offers excellent image quality, ideal for electronics projects and embedded systems. The board includes a TFT cable that facilitates connection and integration with other components, ensuring optimal performance. Additionally, the TFT PCB provides a solid and reliable base for the assembly and operation of the device, ensuring durability and stability in its functioning.

- **Screen size:** 10 inches
- **Screen type:** TFT (Thin Film Transistor)
- **Resolution:** High definition for sharp images
- **Connection:** Includes TFT cable for easy integration
- **PCB:** Printed circuit board (PCB) for secure mounting
- **Compatibility:** Ideal for electronics projects and embedded systems
- **Energy consumption:** Efficient in energy use
- **Dimensions:** Compact and lightweight to facilitate installation
- **Operating temperature:** Suitable range for various applications
- **Durability:** Designed for prolonged and reliable use

Specifications

High	8,5
Width	26,3
EAN	8424299154282

Depth	13,3
