Description

Simon pole switch 73 73101-39

The series 73 Simon has two different models sharing the same inner electrical mechanism. We explain it below:

Simon 73

The series **Simon 73** is the number of mechanism classical surface with a trim intermediate to choose from twelve different colors. Both frames and lids and keys are in two colors; white and ivory. So, you can get 24 different combinations of colors in a high quality mechanism. Its design is rounded, with a style that seems to Simon 75 series but surface.

Simon 73 loft

The loft Simon 73 series is an evolution of the previous one, with a more worked and design. Regarding colors, we can find the frames and lids and keys in three different colors: white, graphite and aluminum.

Both series share the same internal mechanism, so all you have to decide is which of the two series choose to acquire the frame and cover the same model.

Specifications

EAN	8421053028698
