50W Stand Fan with Remote Control and Oscillation

Brand: F-AIR

Reference: EDM 33139

The 50W stand fan with a diameter of 40 cm is a device designed to provide efficient and comfortable ventilation in indoor spaces. Its alternating current motor operates at speeds ranging from 100 to 155 rpm, allowing the user to adjust the intensity of the airflow according to their needs. This fan features a cross base that ensures stability, as well as a protective grille that ensures safe operation. Its height is adjustable, allowing it to adapt to different environments and preferences. It includes a remote control that makes it easy to operate from anywhere in the room, making it a practical and functional option for home or office use. Its white design easily integrates into any decor, offering a cooling solution without compromising the aesthetics of the space.

Description

The 50W stand fan is a climate control device designed to provide a constant and adjustable airflow, ideal for combating heat indoors. With a diameter of 40 cm, this fan is powerful enough to provide a refreshing breeze in medium-sized rooms. Its alternating current motor ensures efficient performance, while the three speeds allow the user to customize the intensity of the air. This model includes features such as automatic oscillation and a remote control, adding convenience and versatility to its daily use.

Technical Features

- Power: 50W
- Diameter: 40 cm
- Speeds: 3 (100-155 rpm)
- Motor type: AC
- Voltage: 220-230V~50-60Hz
- Dimensions: 40 x 40 x 120 cm

Among the benefits of this fan is its ability to improve air circulation in enclosed spaces, which can

contribute to a cooler and more pleasant environment. Additionally, its ergonomic design and oscillation functionality allow for uniform air distribution, avoiding hot spots in the room. The inclusion of a remote control facilitates its use, allowing adjustments to be made without the need to get up.

This fan is ideal for various applications, such as use in homes, offices, and commercial spaces. It is especially useful on hot days, where the need for a cool environment becomes crucial. It can also be used in settings where constant ventilation is required, such as in studios or living rooms, thereby enhancing the comfort of the occupants.

Regarding installation and maintenance, the stand fan is easy to assemble and does not require special tools. Its cross base provides stability, while the protective grille ensures safe operation. For maintenance, it is recommended to clean the blades and grille regularly to ensure optimal performance and prolong the device's lifespan.

Specifications

Colour	Bio
EAN	8435151073191
Manufacturer	F-AIR
Remote control	Yes
Nominal voltage (V)	220230
Speeds	100155
