Battery-Powered Light and Fan with 12 LEDs and Hook

Brand: GRUNDIG

Reference: EDM 73210

The battery-powered light and fan is a multifunctional device designed for outdoor activities such as camping and hiking. Made of ABS, this product features 12 cold LEDs that provide efficient and adjustable lighting at a 360-degree angle. Its integrated fan offers a constant airflow, enhancing comfort in hot environments. It operates on 3 AA batteries (not included), allowing for continuous operation of up to 30 hours, ideal for long days. With dimensions of 19.5 cm in diameter and 6.3 cm in height, its versatile design allows for use on tables or hung using an included hook, making it easy to place in different spaces. Its black and white color gives it a modern and functional look, suitable for any camping environment or outdoor activities.

Description

The battery-powered light and fan is an essential piece of equipment for those who enjoy outdoor activities such as camping, picnics, or hiking. This device combines the functionality of an LED light with the convenience of a fan, offering a practical solution to enhance the experience in natural settings. Its compact and lightweight design makes it easy to transport and use in various situations. The technology used in its manufacturing ensures optimal performance, making it a useful tool in any adventure.

Technical Features
Dimensions: 19.5 x 6.3 cm
Material: ABS
Light type: 12 cold LEDs
Lighting angle: adjustable 360°
Integrated fan
Power supply: 3 AA batteries (not included)
Battery life: up to 30 hours
Color: black and white

The benefits of using this device are numerous. Firstly, the combination of light and fan creates a more pleasant atmosphere during outdoor nights, providing both illumination and coolness. Additionally, its adjustable and portable design makes it easy to use in different configurations, whether on a table or hung in a tent. This makes it a versatile resource that adapts to various needs.

In terms of applications, this product is ideal for camping, hiking activities, or simply enjoying a night in the garden. Its ability to operate for 30 hours on batteries makes it perfect for extended events where electricity is not available. It is also useful in emergency situations, such as

power outages, where lighting and ventilation are needed.The installation and maintenance of the battery-powered light and fan are straightforward. To use it, simply insert the AA batteries into the corresponding compartment and turn on the device. For maintenance, it is recommended to clean the surface with a dry cloth to maintain its appearance and functionality.

Specifications

EAN	8711252304885
Manufacturer	GRUNDIG
Measures	6.3 x 19.5 x 6.3
Battery included	No
Adjustable	No
