Stainless Steel Flexible Coupling 6 mm 50 cm

Brand: TAQ

Reference: EDM 01575

Female-female stainless steel flexible coupling, 50 cm long, internal diameter $\varnothing 6$ mm, maximum flow rate 28 l/min, resistant to pressures up to 3 bar and temperatures up to 70 °C.

Description

Female-female stainless steel flexible coupling, 50 cm long, internal diameter $\varnothing 6$ mm, designed for connections in potable water systems. Made from stainless steel, it offers high resistance to corrosion and complies with sanitary regulations. Its flexibility allows installation in spaces with restrictions.

Technical Specifications

- Material: Stainless Steel
- Connection Type: Female-Female
- Internal Diameter: $\varnothing 6$ mm
- Length: 50 cm
- Maximum Flow Rate: 28 l/min
- Maximum Pressure: 3 bar
- Maximum Operating Temperature: 70 °C

Its construction from stainless steel makes it suitable for food industries, laboratories and sanitary systems where cleaning and durability are required. It is compatible with small diameter pipes and allows quick connections without additional tools.

It is recommended for use in potable water installations or non-aggressive liquids, ensuring proper fit at joints to prevent leaks. Easy to clean and maintain, guaranteeing safe operation throughout its useful life.

Specifications

Diameter	6 mm
Size of the mouth	50
EAN	8429343083983
Manufacturer	TAQ
Long	50
Weight (kg)	0.5
