Description

Daily analog timer 16A white with two units, designed for scheduling in electrical installations. Uses precise mechanical technology with adjustable timing, allowing automatic control of equipment on and off. Its operation is based on a two-position switch: on / auto, making both manual and programmed modes easy to use according to user needs.

Technical specifications

- Maximum power: 3680 W
- Protection: IP20
- Supply: 230 V ~ 50 Hz
- Color: White
- Included: 2 units

Its compact and functional design makes it suitable for residential or commercial applications where efficient time scheduling is required. It is especially useful in lighting, heating systems, or any equipment that requires daily programming.

Installation is simple thanks to its standard connectivity with conventional electrical networks. It is recommended to mount it at an accessible location to facilitate the setup of operating schedules.

Specifications

EAN	8412852131320
Manufacturer	COATI
Power (W)	3680
Protection	IP20
