Description

Compact 16 A daily analog programmer in white with IP20 protection, designed to program lighting and heating schedules. This device allows you to set detailed programs using a tab system every 15 minutes, facilitating precise energy consumption control. It is compatible with a 250 V~50 Hz supply voltage, ensuring operation in standard residential and commercial installations.

Technical specifications

- Rated current: 16 A
- Supply voltage: 250 V~50 Hz
- Protection: IP20
- Programming system: Tabs every 15 minutes

It offers a practical and efficient solution for automating the on/off cycles of electrical devices, ideal for homes and small commercial spaces requiring precise time-based control. Its compact design allows easy integration into existing electrical panels.

Installation is simple as the device mounts directly onto the electrical panel using a standard mounting system. It is recommended for use in dry and protected indoor environments to maintain its technical integrity and optimal performance.

Specifications

Colour	White
EAN	8412852131511
Manufacturer	COATI
Protection	IP20
