Description

Water filter pitcher with analog timer of 2.3 liters, designed to facilitate the obtaining of clean and safe water at home. Its mechanical timer system allows precise control of the filtration time, guaranteeing efficient performance. The included bi-flux filter offers a double flow that improves water quality.

Technical Specifications

- Capacity: 2.3 liters
- Filter Type: Bi-flux (included)
- Timer System: Analog
- Refrigerator Suitable

This pitcher is a practical solution for home use, with a compact design that facilitates storage in small spaces. Its simple operation allows continuous and controlled filtered water production.

Installation is done by placing the pitcher in the refrigerator and following the manufacturer's instructions. The bi-flux filter is easy to replace when needed, ensuring always pure and impurity-free water supply.
