Description

The ultrasonic fly repeller device uses high-frequency wave technology to effectively deter these pests without the need for chemicals, offering an eco-friendly and safe solution for indoor environments. Its silent operation and compact design make it ideal for spaces such as kitchens, dining rooms or warehouses where high hygiene standards are required.

Technical Specifications

- Power: 0.4 W
- Coverage: 25 m²
- Color: Grey
- Protection: IP20
- Power Supply: 230 V ~ 50 Hz

Installation is simple, it only requires plugging into any standard electrical outlet. It is recommended to place it in well-ventilated areas without obstacles that could interfere with the propagation of ultrasonic waves to ensure optimal device performance.

This type of repellent is especially useful in environments where fly presence needs to be avoided without resorting to chemical substances, thus maintaining a clean and healthy atmosphere.

Specifications

Colour	Grey
EAN	8412852127088
Manufacturer	COATI
Power (W)	0.4
Protection	IP20
