Description

The mosquito trap with white LED light is an efficient device for pest control in outdoor spaces. It uses low-energy LED technology and emits light that attracts insects, facilitating their capture. It is suitable for use on terraces, gardens or outdoor areas where a biological control system is required.

Technical Features

- Power: 6 W

Its compact design and quiet operation make it a practical solution for mosquito management without the need for chemical products. It is easy to install and maintain, with consistent performance under normal conditions.

It is recommended to place the device at an appropriate height to maximize its effectiveness. Its automatic operation does not require continuous supervision, making it suitable for residential or commercial use in open environments.

Specifications

EAN	8412852957142
Manufacturer	COATI
Power (W)	6
