Ground HSS High Speed Steel Drill Bit 6 mm

Brand: BLUEMASTER

Reference: EDM 16008

Rectified high-speed steel (HSS) drill with a 6 mm diameter, designed for precision machining in metallic materials and hard composites. It offers high wear resistance and compatibility with standard machining centers.

Description

Rectified high-speed steel HSS drill with a 6 mm diameter, designed for precise machining and cutting applications in various materials. Its construction from high-strength material ensures prolonged longevity and optimal performance under demanding conditions.

Technical Features

- Diameter: 6 mm
- Size: 6

This drill offers excellent wear resistance, making it suitable for work in machine shops and machining centers. Its design allows efficient use in metallic materials and hard composites.

It installs easily in standard tools without the need for additional adjustments, facilitating its replacement during the working process. It is a reliable solution for precision operations in industrial environments.

Specifications

Diameter	6 mm
EAN	8422798615242
Size	6
