Ground Drill DIN 338 HSS-Co ø4 mm 2 pcs

Brand: BLUEMASTER

Reference: EDM 16017

**X2**

Refinished DIN338 HSS-CO drill with a 4 mm diameter, made from high-speed steel with cobalt for superior wear resistance. Designed for precise drilling in metallic materials, it offers durability and dimensional accuracy for industrial applications.

[View product online](#)**Description**

Refinished DIN338 HSS-CO drill with a 4 mm diameter, made from high-speed steel with cobalt for maximum wear resistance and high-temperature performance. Designed for precision applications in mechanical workshops and manufacturing, it offers excellent durability and dimensional accuracy in tough materials such as steel and aluminum.

Technical Specifications

- Diameter: 4 mm
- Material: HSS-CO (high-speed steel with cobalt)

Its construction allows superior performance in intensive drilling operations, maintaining consistent dimensional quality. It is especially useful for tasks where hole accuracy is critical.

The drill can be easily installed in standard spindles of mechanical or electric drills. Its design ensures a longer service life compared to conventional drills, optimizing production time and reducing operational costs.
