HSS-Co Drill with Split Point Tip 3 mm

Brand: BLUEMASTER

Reference: EDM 16025

HSS-Co drill with split point tip and special edge for stainless steel, diameter 3 mm, tip angle 130°, N type helix 30°. Designed for drilling in stainless steels and resistant metals with optimized performance.

Description

HSS-Co drill with split point tip and special edge designed for drilling in stainless steels and resistant metals. Its technology optimizes performance in demanding materials, offering greater durability and precision in industrial applications. The drill has a diameter of 3 mm, a tip angle of 130° and a type N helix with a 30° inclination.

Technical features

- Diameter: 3 mm
- Tip angle: 130°
- Helix type: N 30°

This drill is ideal for work in stainless steels, titanium and other durable metals where high precision is required. Its design allows better material evacuation during drilling, reducing the risk of overheating.

Installation is simple in any conventional drill. It is recommended to use appropriate lubricants during the process to extend the tool's service life and ensure optimal performance in each operation.

Specifications

Diameter	3 mm
EAN	8422798817868
