**Broca din338 hss-co split point
inox 8 mm**

Brand: BLUEMASTER

Reference: EDM 16030

Drill with split point for precise machining in stainless steel, diameter 8 mm. The HSS-Co design offers high resistance and durability in industrial applications.

[View product online](#)**Description**

Diamond-tipped drill with split point for precise machining in stainless steel. Designed for high-resistance industrial applications, it provides efficient and durable drilling thanks to its HSS-Co technology that combines tungsten carbide with high-speed steel.

Technical specifications

- Diameter: 8 mm

Its split point design allows more efficient entry into the material, minimizing the risk of deviation during drilling. It is especially suitable for mechanical and industrial work that requires precision and durability.

It is recommended for use in conventional machine tools capable of supporting this type of drill. Installation is simple, without the need for special adjustments, facilitating its integration into standard production processes.

Specifications

Diameter	8 mm
EAN	8422798817974
