Split Point Drill 10 mm

Brand: BLUEMASTER

Reference: EDM 16032

HSS-Co drill with split point tip and specialized edge for drilling in stainless steels and resistant metals, diameter 10 mm, tip angle 130°, N type helix 30°.

Description

HSS-Co drill with split point tip and specialized edge for drilling in stainless steels and resistant metals. Designed to offer maximum efficiency in tough materials, thanks to its optimized geometry and Co coating. The 10 mm diameter allows precise work in a wide range of industrial applications.

Technical features

- Diameter: 10 mm
- Point angle: 130°
- Helix type N: 30°

Its specialized design allows clean and efficient drilling, reducing the risk of deformation in resistant materials. It offers superior performance in applications requiring precision and durability.

It is suitable for use in mechanical manufacturing, industrial repair and structural assembly. Lubricants are recommended during the drilling process to extend its service life and achieve optimal results. The drill installs easily in standard drills or machine tools.

Specifications

Diameter	10 mm
EAN	8422798818018
