Description

Wall drill bit in tempered steel with a diameter of 5 mm, designed for precise drilling in resistant materials such as brick, block, and concrete. This drill bit uses tip technology that guarantees efficient and durable performance in construction and repair jobs. Its ergonomic design facilitates handling during prolonged use, making it ideal for professionals who require high-resistance tools.

Technical Features

- Diameter: 5 mm

This drill bit is compatible with standard electric drills, allowing fast and efficient drilling in industrial applications. Its construction in tempered steel offers greater durability against intensive usage conditions.

It is recommended for pipe installation work, furniture assembly, or any task requiring holes in resistant materials. The ease of handling reduces working time and improves productivity by enabling precise drilling without compromising material integrity.

Specifications

Diameter	5 mm
EAN	8422798980593
