Description

Wall drill bit specifically designed for drilling in resistant materials such as brick, block, and concrete. Its 3-flute monoblock tip geometry with a 130° angle ensures greater precision and hole centering during operation. The triple evacuation channel improves tool life and performance in percussion drilling, minimizing effort and heat generated.

Technical Features

- Diameter: 8 mm

This drill bit delivers efficient performance in industrial and construction applications, ideal for professionals seeking consistent and durable results. Its optimized design allows faster and more precise drilling, reducing work time and the risk of material damage.

Installation is simple: insert the drill bit directly into a percussion drill and start working. It is recommended to use it with appropriate tools to achieve maximum technical performance and safe operation.
