Professional Drill Bit with Spear Point ø8 mm

Brand: BLUEMASTER

Reference: EDM 16066

Professional drill with sharp point of 8 mm diameter, designed for precise drilling in resistant materials such as metals and alloys. Its durable construction allows optimal performance under demanding conditions, with reduced deviation control during the process.

Description

Professional drill with an 8 mm diameter lance tip, designed for precise drilling in resistant materials such as metals and alloys. Its robust construction ensures optimal performance under demanding conditions, minimizing deviation during the drilling process. This drill combines durability with efficiency, making it ideal for industrial applications that require high precision.

Technical specifications

- Diameter: 8 mm

The lance tip facilitates drill initiation on hard surfaces, improving process efficiency and reducing the risk of deviation. Its design allows effective use in metallic materials and composites with high mechanical resistance.

It is recommended to use it with conventional drilling equipment for optimal results. Installation is simple, as it fits common mechanical tool standards, facilitating its integration into routine industrial processes.

Specifications

Diameter	8 mm
EAN	8422798518116
