Professional Spear Point Drill Ø10 mm

Brand: BLUEMASTER

Reference: EDM 16068

Professional drill with sharp point diameter Ø10 mm, designed for precise applications in resistant materials. It incorporates a specific geometry that improves drilling efficiency and reduces heat generated during the process.

Description

Professional drill with sharp point diameter Ø10 mm, designed for precise applications in resistant materials. Its specific geometry optimizes drill performance and minimizes heat generation during the drilling process. This drill combines durability and efficiency, making it suitable for industrial and professional work that requires high mechanical resistance.

Technical features

- Diameter: 10 mm

Its construction from high-quality material allows optimal performance under demanding conditions. It is suitable for drilling in metals, plastics and other common materials in industrial environments. The sharp point facilitates precise entry into the target material without deviations.

It is recommended for applications requiring high precision and resistance during the drilling process. Installation is simple and direct, allowing immediate use after mounting on compatible tools.

Specifications

Diameter	según descripción: 10 mm
