Description

Standard drill with a 4 mm diameter sharp point, specifically designed for precise drilling in delicate materials such as glass and porcelain. This drill operates at a maximum speed of 900 rpm, ensuring optimal performance in continuous industrial applications where accuracy and durability are required. Its construction allows for clean and well-defined holes without damaging the base material.

Technical specifications

- Diameter: 4 mm
- Revolutions per minute (RPM): 900

This drill is ideal for mounting, installation, and repair work in industrial environments where precise drilling is needed. Its design ensures reliable performance on fragile surfaces such as glass or ceramic.

Its ease of use and compatibility with standard tools make it an efficient choice for professionals who require high-quality drilling without compromising work time. It is recommended to use it with equipment operating within the specified RPM range.

Specifications

EAN	8422798022613
Revolutions per minute (RPM)	900
