Product sheet

Hard Metal Razorback Drill Bit ø30 mm Depth 35 mm

Brand: BLUEMASTER

Reference: EDM 16080

Hard metal drill bit Razorback ø30 mm with a maximum depth of 35 mm, designed for resistant materials such as concrete and stone. It incorporates tungsten segments for high durability in industrial applications.

Description

Hard metal Razorback drill bit with diameter ø30 mm and maximum depth of 35 mm, designed for use in resistant materials like concrete and stone. This tool uses advanced technology with tungsten segments that ensure high wear resistance and durability under intensive conditions. Its robust construction allows efficient performance in industrial and construction work where precision is required.

Technical Specifications

- Diameter: ø30 mm
- Depth: 35 mm

Its specific design facilitates cutting in reinforced concrete structures or natural stone, offering a reliable solution for precise drilling. It is especially useful in industrial environments where high resistance and operational efficiency are required.

The installation is simple and compatible with conventional drills, allowing easy integration into construction or maintenance processes. Its use guarantees long-lasting performance without compromising operator safety during the process.

Specifications

Diameter	30 mm
EAN	8422798012218
