Razorback Hardmetal Drill Bit ø32 mm

Brand: BLUEMASTER

Reference: EDM 16081

Razorback hardmetal drill bit ø32 mm, designed for intensive cutting in resistant materials such as stainless steel. Maximum cutting depth of 35 mm, recommended for sheets up to 3 mm thick.

Description

The Razorback hardmetal drill bit ø32 mm is an intensive cutting tool designed for demanding applications in resistant materials such as stainless steel, copper, brass, and glass fibers. Its TCT (tungsten carbide) technology ensures greater durability and abrasion resistance, making it ideal for prolonged operations. With a maximum cutting depth of 35 mm and a diameter of 32 mm, it delivers optimal performance on sheets up to 3 mm thick.

Technical Specifications

- Diameter: 32 mm
- Cutting Depth: 35 mm

Its aggressive design allows for higher productivity in intensive work, especially effective on metallic and synthetic materials. It is ideal for industrial applications requiring precision and durability. The drill bit facilitates fast and clean cutting under continuous working conditions.

Installation is simple thanks to its compatibility with standard drilling systems. It is recommended for use in continuous cutting environments, maintaining appropriate cooling conditions to extend its service life and ensure consistent performance during prolonged use.

Specifications

Diameter	32 mm
EAN	8422798012225
Depth	según texto: 35 mm
