Hard Metal Drill Bit 48 mm Depth 35 mm

Brand: BLUEMASTER

Reference: EDM 16086

Hard metal drill bit $\varnothing 48$ mm with a maximum cutting depth of 35 mm, designed for high-hardness materials such as stainless steel. It incorporates hard metal technology for wear resistance and prolonged performance in industrial applications.

Description

Hard metal drill bit designed for industrial applications that require high resistance in high-hardness materials like stainless steel and other resistant metals. Its hard metal technology ensures exceptional durability and extended performance even under intensive working conditions.

Technical Features

- Diameter: 48 mm
- Maximum cutting depth: 35 mm

This drill bit allows for clean and precise drilling without deformation, minimizing the risk of damage to processed parts. Its optimized design facilitates direct integration into existing production lines, without the need for complex adjustments.

It is recommended to use it with standard drills to achieve optimal results in efficiency and quality. Installation is simple and quick, allowing immediate startup in high-performance industrial environments.

Specifications

Diameter	48 mm
EAN	8422798012324
