Hardmetal Razorback perforating crown ø57 mm

Brand: BLUEMASTER

Reference: EDM 16089

Hardmetal Razorback perforating crown ø57 mm, designed for intensive cutting in resistant materials such as stainless steel. Maximum cutting depth of 35 mm, recommended for sheets up to 3 mm thick.

Description

The hardmetal Razorback perforating crown ø57 mm is a specialized tool for intensive cuts in resistant materials like stainless steel and other metals. Designed with a tungsten coating, it offers high resistance to abrasion and optimal performance in demanding industrial applications. Its hard metal construction ensures long service life even under intensive working conditions.

Technical specifications

- Diameter: 57 mm
- Cutting depth: 35 mm

This crown is ideal for work on sheets up to 3 mm thick, allowing precise and efficient perforations. Its aggressive design facilitates cutting in dense materials without compromising the quality of the result.

Its installation is simple thanks to its compatibility with conventional drills and machine tools. It is recommended to use it with appropriate speed and feed specifications to achieve optimal results in each application, optimizing both performance and equipment durability.
