Razorback ø64 mm Punching Crown Depth 35 mm

Brand: BLUEMASTER

Reference: EDM 16091

Hardmetal drill bit Razorback ø64 mm, designed for intensive cutting in resistant materials such as stainless steel. Maximum cutting depth of 35 mm, recommended for sheets up to 3 mm thick.

View product online

Description

The hardmetal drill bit Razorback ø64 mm is a specialized tool for intensive cutting in resistant materials such as stainless steel, iron and other metals. Its aggressive design and tungsten carbide coating ensure high resistance to abrasion and efficiency under demanding conditions. This drill bit is especially indicated for jobs that require precision and durability in intensive environments.

Technical specifications

- Diameter: 64 mm
- Cutting depth: 35 mm

Its main application occurs in sheets up to 3 mm thick, making it ideal for materials such as stainless steel, steel, fiberglass, copper, nickel, brass, synthetic materials and wood. Its robust construction ensures consistent performance even under intensive working conditions.

Installation is simple thanks to its standard design that easily adapts to conventional drilling machines. It is recommended to use it with the appropriate equipment to achieve optimal results in terms of cutting precision and efficiency.

Specifications

Diameter	64 mm

EAN	8422798012393
Depth	según descripción: 35 mm
