Razorback Hardmetal Drill Bit ø70 mm

Brand: BLUEMASTER

Reference: EDM 16093

Razorback hardmetal drill bit ø70 mm with a cutting depth of 35 mm. Designed for resistant materials such as stainless steel and iron, it offers high abrasion resistance thanks to its TCT technology.

Description

The hardmetal Razorback ø70 mm punching crown is designed for intensive cutting applications in resistant materials such as stainless steel, iron and other metals. Its TCT (Tool Carbide Tough) technology offers high abrasion resistance and efficiency in demanding operations. This tool features an aggressive design that optimizes performance under critical working conditions.

Technical Features

- Diameter: 70 mm
- Cutting depth: 35 mm

Its capacity allows working with sheets up to 3 mm thick, making it suitable for a wide range of materials including stainless steel, steel, fiberglass, copper, nickel, brass, synthetic materials and wood. Its robust construction ensures durability in intensive industrial environments.

This crown fits easily onto conventional drilling machines, facilitating installation without the need for special tools. It is recommended to use it with appropriate speed and feed specifications to achieve optimal results in each application.

Specifications

EAN	8422798012461

Depth	según descripción: 35 mm
