Hardmetal Drill Bit Razorback ø83 mm

Brand: BLUEMASTER

Reference: EDM 16095

Razorback hard metal drill bit ø83 mm for cutting applications in hard materials. Diameter of 83 mm with a maximum drilling depth of 35 mm, designed for industrial use in precise drilling processes.

Description

The Razorback hard metal drill bit ø83 mm is a precision accessory designed to create holes in hard materials with high mechanical resistance. Its construction from hard material ensures exceptional durability and consistent performance, even under intensive usage conditions. This tool specializes in industrial applications requiring precise and efficient cutting.

Technical specifications

- Diameter: 83 mm
- Maximum drilling depth: 35 mm

Its design allows optimal performance in drilling processes where precision and resistance are required. It is ideal for work on steel, aluminum, and other durable metals, offering a reliable solution for demanding industrial environments.

Installation is simple and does not require additional tools; it can be mounted directly on conventional drilling machines. This facilitates its integration into existing production processes without the need for complex modifications.

Specifications

Diameter	83 mm

EAN	8422798013185
Depth	según descripción: 35 mm
