Product sheet

Hardmetal Wall Passageway Ring 68 mm with SDS Plus Spindle

Brand: BLUEMASTER

Reference: EDM 16100

Hardmetal wall passageway ring ø68 mm, includes SDS-plus spindle and guide drill. Cutting depth up to 60 mm, ideal for drilling in brick and non-reinforced construction materials.

View product online

Description

Hardmetal wall passageway ring ø68 mm, designed for precise drilling in construction materials such as brick and blocks. Its advanced technology allows creating holes with a maximum depth of 60 mm, facilitating work in confined spaces. Includes SDS-plus spindle with M16 thread and guide drill for greater precision during operation.

Technical Features

- Diameter: 68 mm
- Cutting Depth: 60 mm
- Spindle included with M16 thread
- Guide drill included

This tool is ideal for electrical installations, ductwork and ventilation in non-reinforced structures. Its hardmetal construction offers superior resistance to wear, extending its service life under intensive usage conditions.

It connects directly to drills with SDS-plus system and it is recommended to operate at 700 rpm to achieve optimal results without damaging the material or the tool. It facilitates the drilling process in construction environments where precision and efficiency are required.

Specifications

Diameter	68 mm
EAN	8422798059459
Depth	60 mm
