Topometer with Light 9 m

Brand: MEDID

Reference: EDM 19946

Topometer with 320 mm wheel, maximum length of 9 m, 5-digit mechanical counter with light. Works by rolling and allows bidirectional measurement. Includes support stand and transport bag.

Description

Topometer with 320 mm wheel and maximum length of 9 m, designed for precise measurements by rolling over flat surfaces. Its 5-digit illuminated mechanical counter allows clear reading even in low light conditions. It is ideal for field work that requires portability without sacrificing accuracy.

Technical specifications

- Length: 9 m
- Wheel diameter: 320 mm
- Foldable handle
- Gummed rollers
- Mechanical counter with 5 digits and light
- Zero reset function via button on the handle
- Integrated support stand

Its bidirectional operation facilitates precise measurements both forward and backward, which is very useful in confined spaces. It is especially suitable for surveying, construction, and infrastructure maintenance.

Includes an integrated support stand and a transport bag for protection during storage or transportation. Its robust design and ease of handling guarantee its effectiveness in demanding professional environments.

Specifications

Diameter	320 mm
EAN	8421411012222
Manufacturer	MEDID
Long	9 m
Weight (kg)	0
